Dear Ed:

Know you are swamped, but we have two questions with which we need your assistance.

1. Charles Warren of Indianapolis has written requesting the return of the NCW report. Could you send this back to us and we will send it on immediately.
2. We haven't received the reimbursement as requested 26 August 1967, copy attached. We know things are probably in a mess and maybe in the midst of an audit, but thought we should check with you in case it had just been overlooked.

Thanks again for all your assistance.

Yours truly,

Dear Ed:

The last of the books and awards are finally in the mail and on their way. Some of the postage receipts are attached to account for the large amount--in addition to returning the packages there was some correspondence. We did write and let people know their books (and awards if not picked up) were on their way. Because of the convention location and many persons flying in, some of the books weren't picked up that really should have been--Greene, N.C.; Pogg, Struthers; Rochester; etc. The books were so large it would have been impossible for them to take it on the plane and we didn't see how we could force them too. Jimmie Lawrence signed for his book and left it in the exhibit area, so we brought it back and mailed it too when we were unable to locate him before leaving Florida.

On our accounting sheet we gave to you the totals need to be changed to reflect the correct figures--Postage & Freight US, column 3: \$269.39; Postage & Freight outside US (overseas), column 4: \$48.44; Supplies, column 5: \$38.96. After adding up all the expenditures it leaves us with a balance of \$176.71 to the good according to all figures we have been able to get.

We have enjoyed our year greatly and wish to thank you for all your assistance. If there is any way we may help NCW 1968 please ask. We have a club interested from here and will try to stir up more enthusiasm.

Yours truly,

Rich & Virginia Bronson
